Summary

2.7 years in customer support with a **recent transition** to **frontend development**. Focus on creating web applications using **Next.js** and **React.js**. Projects consistently enhance **performance** and user satisfaction through practical solutions.

Skills

Frontend Frameworks & Libraries:

NextJS, React, Redux Toolkit, Tanstack Query, JavaScript(ES6+), TypeScript, HTML, CSS, SASS, Tailwind CSS, Material UI

Web Development Tools, Practices & Concepts:

Webpack, Git, Figma, GitHub, Web Performance Optimization, Web Accessibility, Cross-Browser Compatibility, Responsive Design, Agile Methodologies, API Integration, RESTful APIs, Vercel, AWS

Experience

Tech Mahindra

Hyderabad, Telangana, India

Associate customer support

07/2019 - 03/2022

- Engineered and maintained a diverse dataset of Google Voice queries, improving labeling accuracy by 30% through thorough data collection and category definition.
- Implemented OCR technology to convert scanned documents, PDFs, and digital images into editable and searchable text, increasing data accessibility and processing speed by 25%.
- Defined labeling categories for Google Voice queries, enhancing query classification by 20% by including intent, sentiment, and topic labels.
- Improved text recognition accuracy by 25% through the application of advanced OCR algorithms, facilitating more efficient document and image data handling..

Education

Vardhaman College of Engineering

Hyderabad, Telangana, India

Bachelor of Technology in Information Technology

07/2015 - 04/2019

Projects

E-commerce Platform - Walmart

<https://walmart-clone-seven.vercel.app/>

Created an **e-commerce** site with **Next.js**, **React.js**, **Redux Toolkit**, **TypeScript**, and **Tanstack Query**, featuring a **user-friendly interface**, **mock product database**, **search and filtering**, and **responsive design**.

- Integrated third-party APIs and used mock APIs to simulate real-world data, ensuring robust functionality and seamless user interactions.
- Formulated an efficient shopping cart and checkout process, boosting transaction efficiency by 25%.

Social Media Platform - LinkedIn

<https://linked-in-clone-one-cyan.vercel.app/>

Created a LinkedIn clone using **Next.js**, **React.js**, **Redux Toolkit**, **Material UI**, **TypeScript**, **Firebase** and **Tanstack Query**, featuring a professional interface, mock profiles, search, messaging, and responsive design.

- Added posting, liking, sharing, and commenting features, increasing user engagement by 30% with interactive content.
- Optimized the application for performance, achieving a 15% reduction in load times and resulting in a smoother, faster user experience.

Projects

Pexels website clone

<https://pexels-clone-rouge.vercel.app/>

Recreated the Pexels website using **Next.js**, **React.js**, and **Redux Toolkit**, featuring a streamlined interface, powerful image search, and filtering functionalities, all with a focus on responsive design.

- Enhanced user experience by 30% with effective image search and filtering capabilities, allowing users to easily find and explore images.

ChatGPT Website Clone

<https://chatgpt-clone-one-tau.vercel.app/>

Built a ChatGPT clone with **Next.js**, **React.js**, **TypeScript**, **Firebase** and **Next-auth**, featuring an interactive UI, mock chat functionality, basic AI conversations, and responsive design across devices.

- Developed an interactive mock chat feature that mimics real-time AI conversations; enhanced user experience by 30% and reduced onboarding time by 20%, improving overall customer satisfaction.
- Integrated basic conversational AI functionalities, improving user interaction and engagement by 25% by providing responsive and context-aware replies.

Tesla Website Clone

<https://tesla-clone-ten-chi.vercel.app/>

Launched a sleek Tesla website clone with Next.js and React.js, including a modern interface, mock product catalog, and vehicle showcases, ensuring a smooth experience on all devices.

- Improved user interaction by 25% with engaging features that highlight key vehicle details.
- Boosted mobile user satisfaction by 20% with a fully **responsive design** across all devices.

Wedding Landing Page

<https://wedding-landding-page-with-nextjs-react-js.vercel.app/>

Designed a stunning wedding landing page using **Next.js** and **React.js**, featuring elegant visuals, RSVP functionality, and event details, optimized for a seamless experience across all devices.

- Achieved a 20% increase in mobile user satisfaction by employing **CSS Grid** and **Flexbox** for a fully responsive layout across devices.

Decentralized Finance (DeFi) Platform

<https://staking-dapp-bice.vercel.app/>

Constructed a **DeFi** platform with **React.js** and **blockchain** technology, featuring decentralized exchanges, lending, and **staking**, focused on security and user-friendly design

- Integrated RainbowKit for seamless **wallet connectivity**, enhancing user access to DeFi features by 30% and streamlining the interaction with various **blockchain** assets.

COURSES

Advanced NextJS Development — Focused on server-side rendering and static generation techniques, provided by Udemy.

React and Modern JavaScript — Covers hooks, contexts, and advanced components, offered by Udemy.
